- Realistic audio-visual effects simulator.
- High quality sound.
- Radio remote controlled.
- Smartway compatible.

An ideal and complementary training tool, Stressit combines perfectly with Satellit flame generators and Opacit smoke generators to create more realistic training sessions by adding stressful conditions. Furthermore, it is Smartway compatible. Which means it can be controlled from the training tablet computer. Extremely practical if you conduct sessions using several training devices.

Scenarios adapted to each kind of trades

- Flames.
- Domestic fire.
- Fire in public buildings.
- Military / hostile environments.
- Hospital evacuation.
- Demonstration / protest.
- Industrial disaster.

Associated products

- Opacit smoke generators.
- Satellit flame generators.
- Training tablet (FTAF0001)
- Training extinguisher (FEXF0081).

Technical characteristics

Part number	FSAS0080
Power supply	110 - 230 V / 50 Hz
Battery backup	12 V / 7 Ah Pb battery
IP rating	IP 54
Control	Two-way radio 433 MHz
Communication protocol	Smartway
Autonomy	4h
Number of tracks	7 scenarios of 5 min + 7 interactive sounds
Maximum sound volume	94 dBA at 1 meter
Material	Polycarbonate
Supplied accessories	Transport protective bag
Weight	5 kg
Dimensions	W.300 x H. 300 x D. 300 mm
